## Road repair

Fellow homeowners:

We have just completed sealing the cracks and applying a seal coating to Stephen Lane. I am more than pleased with the outcome of the job that US Paving has done.

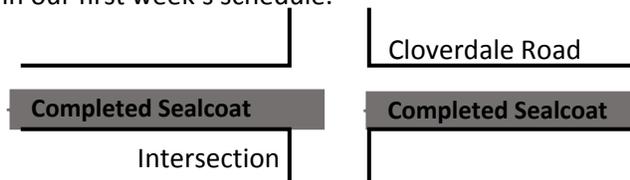

We are now working on Cloverdale Road. The cracks have been filled in and the three main areas of road damage have been fixed. We will begin sealing the road on Monday, August 19<sup>th</sup>. While working on Stephen Lane, there were some issues which I would like to prevent as we start sealing Cloverdale Road. One person needed to go in and out his driveway numerous times as the sealant was curing. There were two other occasions where someone drove through freshly laid sealant. You can follow the tracks from one of the cars where it went on to Cloverdale Road and to a driveway. It looks like another person decide to spin wheels on freshly laid sealant. The problems were all fixed.

Again, I ask patience and cooperation from you concerning our much needed road repair. I am asking you to do everything possible to stay off of the freshly laid sealant. You may have to drive a different route to get to you home. You may need to park in the grass on the opposite side of your home.

### **PLEASE OBSERVE THE CONES THAT BLOCK OFF THE FRESHLY SEALED SURFACES.**

Below is a schedule for the next week's activities. This schedule may be altered due to unforeseen circumstances. This notice will be posted at the mail box and will be updated daily. The schedule was devised to lessen the impact of your inconvenience as well as to allow the surface to cure as much as possible. We will do one side of Cloverdale Road. When that entire side is finished, we will start on the other. The side that we will start on will be the right side of the road as you are coming in to the subdivision from the main entrance. When the entire right side of Cloverdale is completed, we will start on the left side. The roads should stay closed off until the next morning.

When construction comes to an intersection, one lane of the intersecting road will be left open (see figure below). If there are two entrances to the intersected road, such as Heath Drive and Scottie Drive, one entrance will be totally closed and you will need to drive to the other entrance to access your property. Heath Drive and Scottie Drive will be affected in this manner in our first week's schedule.

### **Monday - August 19<sup>th</sup> 2013:**

1. Main Entrance to Cull-de-sack

### **Tuesday - August 20<sup>th</sup> 2013:**

2. Jessie Lane to Veronica Court
3. Heath Drive (Heath Ct End) to Stephen Ln

### **Wednesday - August 21<sup>th</sup> 2013:**

4. Heath Drive (Veronica Drive End) to Scottie Drive
5. Stephen Lane to Roper North Fork Road

### **Thursday - August 22<sup>th</sup> 2013:**

6. Scottie Drive to Scottie Drive

### **Friday - August 23<sup>th</sup> 2013:**

7. Jessie Lane to Veronica Lane (Left side of the road)

Thank you for your cooperation. If you have any questions, feel free to call.

**Bob Montgomery - 304-728-0993**
